DIED IN THE WEST.

On T. Everett Butler Succumbs To Tuberculosis in Denver Colorado.

Telegrams were received in the city Saturday announcing the death in Denver of Everett Butler in that city Dec. 1st of consumption. He, accompanied by his wife, left Kentucky a year ago in search of health and has since remained in the mountains of Colorado. While at times he would feel improved and benefited by the healthful air of Colorado, he has never been permanently better but gradually lost strength until the end.

His faithful wife was at his side during all these weary months of suspense and pain, also his brothers, Edward and Isaac, and his wife's mother, Carter Koon, much of the time and they all returned with the remains which arrived here at noon Tuesday. A great number of friends and relatives were at the station to meet the beloved dead and to accompany him to his last resting place at Salem.

The deceased was born near Salem, July, 10th, 1877, and died Dec. 1st 1905, being in his 29th year. He was happily married to Miss Ida Koon, of the Fredonia Valley, Christmas-eve day, Dec. 24th 1901.

His father, the late W. F. Butler, has been dead several years and his mother died June 2nd 1900.

He professed religion in early life and joined the Presbyterian church at Salem and was still a member at the time of his death.

Everett Butler was one of the most promising young men in Western Kentucky and never been refused any office he had sought. He was elected to the General Assembly of Ky. in the fall of 1903 and took his seat in Jan 1904 and served with distinction. He was nominated for county attorney of Livingston county before he went west but his continued ill health caused him to send in his resignation and Hon. W. I. Clark, of Smithland was named in his stead to make the race.

Up Will Go Christmas Turkeys.

Paducah News-Democrat: "Turkeys are going to be in even bigger demand than that prevailing during Thanksgiving week," said a member of the Woolfolk, Bowers company yesterday.

"The Christmas market for the big fowl is open now and this will have a tendency to lift the price and keep it up. We are very anxious to get the thousands good, fat turkeys at once. We are expecting to load the cars and ship them to New York. The turkeys will be dressed here and packed in cold storage cars and then shipped to the market. This is a much cheaper way of shipping than to send the turkeys on foot.

"Not only is the price of turkeys high, but all fowls are commanding good figures. Hens and pullets are seven cents a pound and ducks are bringing the same price. The market gives indications of remaining steady on chickens and ducks as well as on turkeys.

LaGrippe and Pneumonia.

Pneumonia often follows la grippe and never follows the use of Foley's Honey and Tar. It cures la grippe and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Oregon St., Chicago, writes: "My wife had a severe case of la grippe three years ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50 cent bottle cured her cough entirely." Refuse substitutes. Woods & Orme.

The Club by unanimous vote agreed to pay the expenses of such trip and C. E. Weldon, J. M. Freeman and D. B. Kevil were appointed a committee to raise funds to defray the expenses of the Club's representative on the trip to the glass factories of Indiana.

Threw a Plum Bob.

Washington, Dec. 2.--As President Roosevelt's special train was passing through North Philadelphia at 7:30 o'clock this p. m. some unknown person hurled a plumber's bob through one of the windows of the combination car Salvia. The implement weighed about two and a half pounds. It fell at the feet of Major Webb Hayes, son of the late President Hayes.

No clue to the thrower of the missile was obtained although the matter was reported to the officers of the Pennsylvania railroad at Philadelphia. The President himself knew nothing about the matter, until an hour or more after its occurrence. The railroad officials are inclined to the belief that the bob was thrown by a boy.

Mining News.

R. D. Drescher & Co. are making a move to put in machinery at the Mary Belle spar mine.

The Yandell mine is working six days per week and getting out 25 tons of fluor spar per day.

Mr. Harry Watkins will leave for Missouri the last of the week for the purpose of examining mineral lands for capitalists of Memphis, Tenn.

The Sander Bros. two young mining engineers from New York, are building a new mill in Marion for the purpose of separating the zinc and spar.

Mr. James Persons has leased the old LuRus shaft from the Morgau-field Mining company and is mining considerable amounts of lead, zinc, and fluor spar.

The Kentucky Fluor Spar company are working night and day at their Memphis mine, and mining from twenty to thirty tons of fluor spar per day.

They started taking water out of the mines at the Ada-Florence last week; as soon as the mines are drained the company expect to start up work again.

Mr. Pope Yateman, an expert mining engineer, of Chicago, visited our mining field last week and made an examination of the Columbia Mining company's mines and property. Mr. Yateman was well pleased with our mining field and thinks we have a very rich district of lead, zinc, and fluor spar.

The Hopewell Mining company have shut down for the purpose of putting in new machinery. Their old machinery was not sufficient to pump the water and do the hoisting. As soon as they install their new machinery they expect to run on a larger scale and have a big output of zinc and fluor spar.

The Commodore Mining company put in a new Camron pump last week. This is the best pump in the district and is giving the company entire satisfaction. The Commodore has had a lot of water of late which has prevented them from sinking their shaft as fast as they would liked, but now they expect to sink very rapidly and get their shaft down 100 to 150 feet by spring.

One of the most novel receptions of the season was that given by Mrs. R. F. Haynes at her beautiful home on North College street Tuesday evening, Nov. 28th, in honor of Miss Emi Scott, of Frankfort.

Each guest was requested to wear some article of apparel representing their favorite fish. This was indeed an interesting feature as each guest tried to guess what the others represented.

The most notable event of the evening was conundrums which were answered by different names of fish.

Throughout the evening charming musical selections were rendered by Mrs. W. O. Tucker, Misses Agnes Watkins, Gwendoline Haynes, Kitty Gray and Emi Scott.

Later in the evening the guests repaired to the spacious dining room which was tastefully decorated in evergreens. Here they were served with a delicate repast consisting of chicken salad, served in beet cups, bread and butter sandwiches, cheese straws, coffee, ice cream and cake.

NEW SALEM.

Hog killing on hand.

Moses Patton, of Dycusburg, was a pleasant caller in this section last Sunday.

Our old friend, Uncle Billy Fuller has gone to Tenn. on a visit.

Born to the wife of Jas. Mahan, Nov. 28, a big boy.

T. A. Harpending has been on crutches the past week. The result of a horse kick.

This section was visited on the night of the 28th by one of the biggest floods ever known in this part of the county; all fences on the creeks were swept away, thousands of rails lost, and hundreds of dollars loss to farmers.

Henry Brouster visited friends at Tolu Sunday.

John Harpending left for Golconda Sunday.

Obe Kirk had to move his family the night of the flood; the water was eight inches deep in his house. Obe thought a second deluge had started.

Our young people were entertained at a musical at the residence of Mr. and Mrs. Henry Brouster one night last week.

The telephone men are at work in this section, putting in new poles, and other things.

A wagon load of bears passed up the road Sunday evening, causing as much excitement as if an auto had passed through this part of our vine yard.

One of our neighbors killed hogs last week, got scared when it commenced to rain and made up two barrels of sausage meat. There was the smell of sulphur around that house when it turned cold.

We always had due respect for a good man, but a mean cuss, who when he thinks there is danger about to be visited upon him, and who was never known to lead in prayer meeting, calls upon his good wife to lead in prayer while he holds the baby, is just a little too mean to live. Such was the case the night the flood came in our section.

Be Sure to Use Only Cream of Tartar Baking Powder

Food made with alum baking powder carries alum to the stomach unchanged. Scientists have positively demonstrated this and that such food is partly indigestible and unhealthy.
